- Rabbit
- Sea Turtle
- Scarecrow
- Slug
- Snail
- Snap d'Dragon
- Spider & Web
- Starfish
- Teddy Bear
- Turtle

Recent flowers added— how many can you find?

- Delphinium - Blue
- Dogwood - White
- Fawn Lily - Pink
- Holly Hocks - Red
- Hummingbird Sage - Pink
- Mid-winter Fire Dogwood - Orange, Red, Yellow, Green
- Squash - Yellow
- Wisteria - Purple & Pink

Extra Credit: You're a Garden d'Lights STAR if you can find the Fairy Door!

GARDEN d'LIGHTS

Fun Facts!

- Garden d'Lights began in 1994—this is our 25th Anniversary! The event began as a way to encourage visitors to come to the Bellevue Botanical Garden in the winter. The first year, a handful of people came to view twinkly lights on a few rhododendrons, and purple lights on an arbor replicating a wisteria vine. Many more creations have been added over the years, and include flowers, critters, waterfalls, and flowering trees.
- This year, more than 80,000 visitors will attend Garden d'Lights over a period of 32 nights.
- More than half a million lights make up the Garden d'Lights display.
- Approximately 30 volunteers create, maintain, and install the lights over an 11-month period, using colored light strings, zip ties and rebar, with 100 more volunteers working during the event. Total volunteer time is over 6,400 hours every year.
- Two of the favorite creations are Snap d'Dragon, which is composed of 8,850 lights and took 225 volunteer hours to create; and the Poinsettia Tree, which has been rebuilt several times. The current version has 11,000 lights and took 350 volunteer hours to create.
- The Aquarium, located in the Shorts House, has 19 different features.
- The average life span of a “plant” is five years, with a few lasting up to 10 years.
- The time to create a plant is at least 2 hours, with complicated plants taking up to 40 hours. Each critter takes more than 40 hours to create.
- Installation takes more than 4 weeks, with volunteers working 6 days a week.
